Does This Describe You?

Most people don't begin this journey lightly. They come to us because they're:

- **Frustrated with loose or uncomfortable dentures**
- **Avoiding certain foods**
- **Embarrassed when speaking or smiling**
- **Experiencing irritation or sore spots**
- **Noticing changes in facial structure**
- **Disappointed with previous dental work that didn't meet expectations**

Some patients feel their previous denture or implant solution was rushed, poorly fitting, or simply not what they were promised.

If you're looking for a solution done with greater precision and care, you're not alone.

“Redeemed smiles is giving me back my smile... From the time I walked in and left **they were truly amazing** - they made me feel like **I was worth fixing.**”

-Buffy, real patient testimonial

Solution Option 1

Premium Dentures

Premium Dentures

NOT ALL DENTURES ARE CREATED EQUAL

The difference between average dentures and exceptional ones comes down to precision, planning, and craftsmanship.

When done properly, dentures should:

- **Look natural – not artificial**
- **Feel stable and comfortable**
- **Restore confident speech and function**

Too often, dentures are rushed or mass-produced, leading to poor fit and ongoing frustration.

At Redeemed Smiles, we focus on:

- **Thoughtful planning – no shortcuts**
- **Proper preparation for lasting comfort**
- **Precise impressions for better fit**
- **Final refinements for a natural look**

We don't aim for fast.

We aim for fit, function, and long-term comfort.

**“I would like to
Thank
Redeemed
Smiles for **taking
such excellent
care of my dad**
and helping him
smile again! The
staff is
amazing!!”**

Angla, real patient testimonial

Solution Option 2

Snap-in Dentures

REDEEMED  SMILES

— DENTURES | IMPLANTS | DENTISTRY —

Snap-In Dentures

A SMARTER LEVEL OF STABILITY

Snap-in dentures combine the natural appearance of traditional dentures with the added strength of dental implants.

Strategically placed implants act like artificial tooth roots, allowing your denture to securely attach and lock into place. Unlike removable dentures that simply rest on the gums, implant-supported snap-ins are anchored for greater stability and long-term support. The result is a noticeable difference in everyday life.

Snap-in dentures can:

- **Minimize movement** during speaking and eating
- **Improve chewing strength.** While Traditional Dentures provide only 300lbs of biting force, **Snap-in Dentures provide 1200lbs of bite force**
- **Reduce pressure points** and sore spots
- Enhance **speech clarity**
- Help **preserve jawbone** and facial support

Cost: Starting at \$7,500

“Thank you Dr Fullington and all the amazing staff for taking care of me I can't thank you all enough”

-Jeff, real patient testimonial

Bone Health & Denture Stability

SNAP-IN DENTURES PREVENT BONE LOSS

Jawbone loss **begins far sooner than most people realize**. When a tooth is lost, the jawbone in that area stops receiving the stimulation it needs to stay healthy. Without that stimulation, the bone begins to shrink—a process that can start within months, not years. Tooth loss can cause up to $\frac{3}{4}$ inches of bone to be lost within the 1st year. As bone loss progresses, it doesn't just affect oral health. It changes the entire lower face.

Over time, this loss of bone can:

- Cause dentures to loosen and shift
- Lead to chronic irritation and sore spots
- Reduce chewing strength and stability
- Create a sunken or collapsed facial appearance - a phenomenon called "witches chin"
- Make the chin appear more prominent as the jaw recedes

Bone loss is silent.

It happens gradually, without pain—but its effects are permanent. The dental implants used in our snap-in denture procedure address the root problem by replacing the missing tooth root itself. This is why timing matters.

The sooner bone is supported, the more can be preserved.

Facial appearance with teeth and bones

Appearance after tooth loss

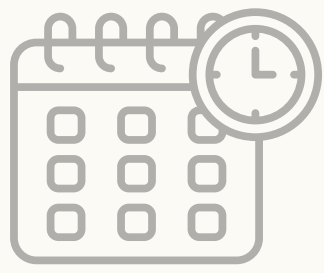

Appearance after tooth and bone loss

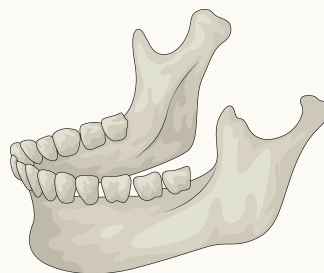

Snap-in Dentures STOP jawbone deterioration by restoring the stimulation your bone needs to stay healthy.

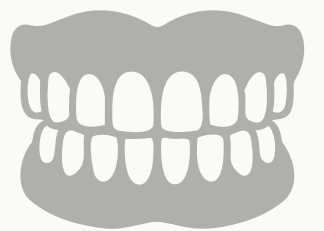

WHAT HAPPENS WHEN TOOTH LOSS IS LEFT UNTREATED

Bone loss begins within months after tooth loss

The Jaw continues to shrink year after year

Dentures become less stable over time

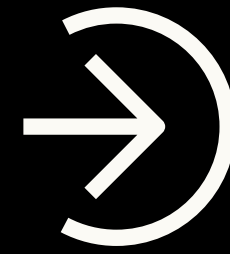

Facial support diminishes, creating an aged appearance

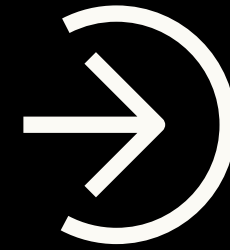

Future treatment options become more limited

HOW IMPLANTS CHANGE THE OUTCOME

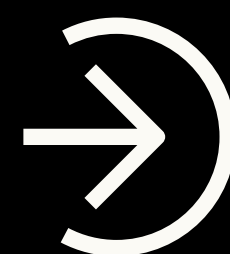

Preserve jawbone density

Dental implants replace the tooth root, stimulating the jawbone & preventing the bone shrinkage that occurs after tooth loss.

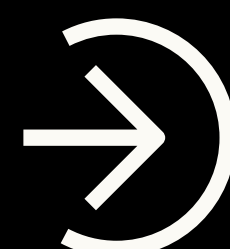

Maintain facial structure & support

By maintaining bone volume, implants help prevent the sunken or collapsed appearance often associated with missing teeth

Provide unmatched stability for long-term restorations

Implants anchor crowns, bridges, or dentures securely in place — eliminating slipping, shifting, and discomfort.

Restore natural function, not just appearance

The implants used in our snap-in denture & Fixed Arch procedure allow you to chew, speak, and smile with confidence while protecting your overall oral health.

Solution Option 3

Fixed Full-Arch Dental Implants

REDEEMED  SMILES

— DENTURES | IMPLANTS | DENTISTRY —

FIXED-ARCH IMPLANTS

FIXED-ARCH ALL-ON-4® DENTAL IMPLANTS

For patients missing most or all teeth in an arch, All-on-4 dental implants offer a comprehensive, fixed solution.

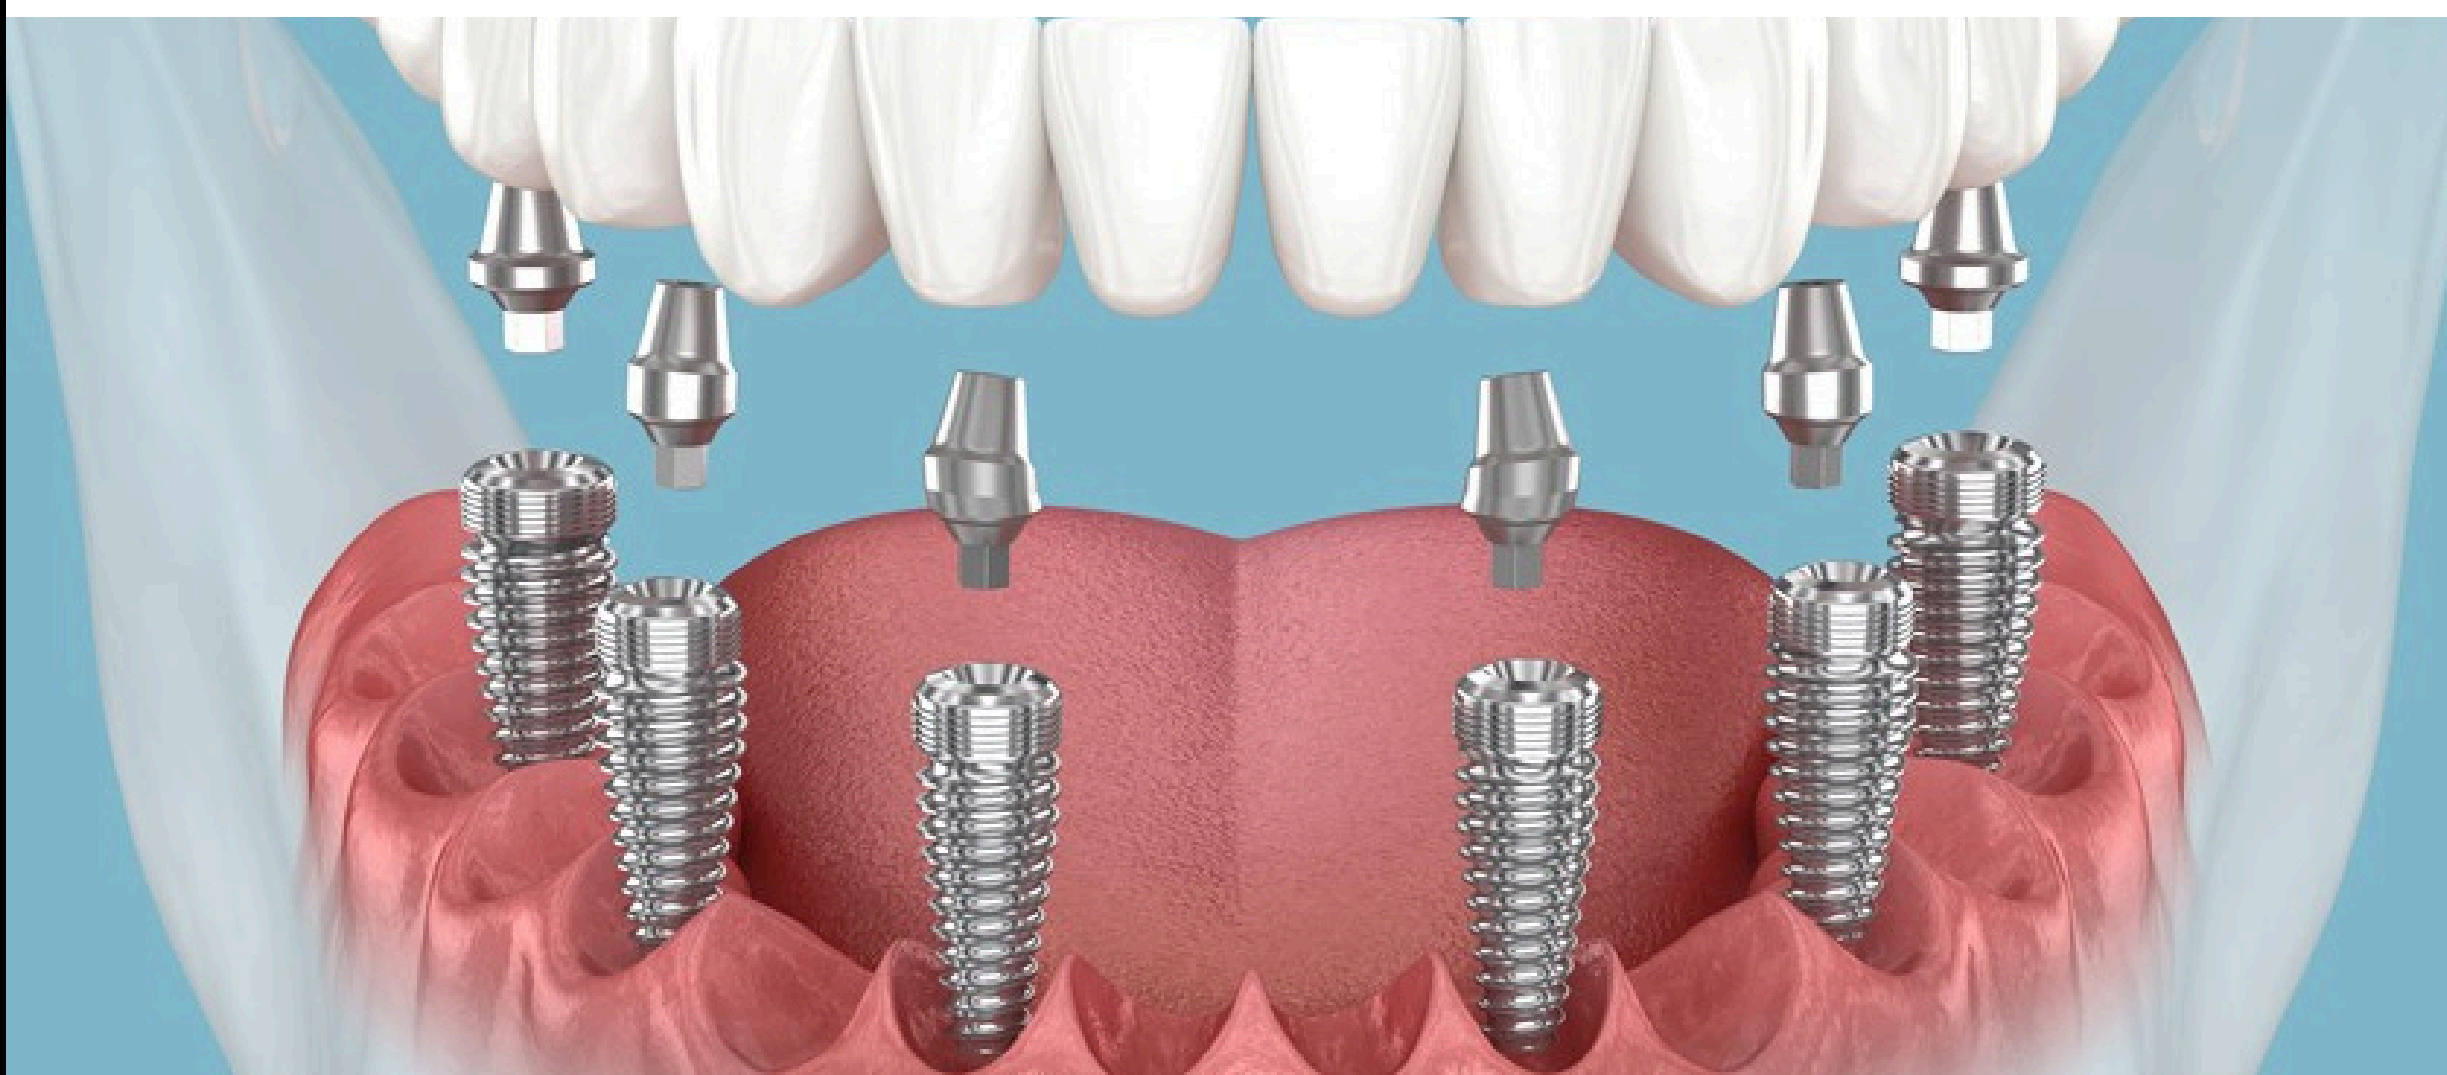

This technique uses four strategically positioned implants placed in the jawbone to support a full-arch prosthesis. The implants act as anchors, allowing a custom restoration to remain securely in place — similar to natural teeth.

Unlike removable dentures, fixed-arch restorations remain in place at all times.

Fixed-Arch Implants:

- **Permanent attachment** to dental implants
- **Greater stability** than removable dentures
- **Improved chewing strength** and speech clarity
- Ongoing **jawbone stimulation**
- **Long-term** structural support
- **Streamlined treatment** in many cases

Cost: Starting at \$20,000

**The closest
option to
having your
natural teeth
again —
permanently
secured.**

COMPARISON CHART

TRADITIONAL DENTURES

For patients seeking a removable solution to replace missing teeth. Traditional dentures rest on the gums and are custom-designed to restore appearance and basic function.

Traditional Dentures:

- ✓ Fully removable
- ✓ Rest on the gums
- ✗ May require adhesives
- ✗ More movement during eating and speaking
- ✗ Do not stimulate jawbone
- ✓ Most conservative investment

SNAP-IN DENTURES

A removable denture supported by strategically placed dental implants for added stability. Implants allow the denture to securely attach and “snap” into place.

Snap-In Dentures:

- ✓ Removable for cleaning
- ✓ Secured by 2–4 implants
- ✓ Significantly improved stability
- ✓ Reduced movement and irritation
- ✓ Provides some jawbone stimulation
- ✓ Balanced investment and performance

FIXED-ARCH IMPLANTS (ALL-ON-4®)

A full-arch restoration permanently secured to four dental implants. Designed to remain in place at all times.

Fixed-Arch Implants:

- ✓ Non-removable
- ✓ Anchored to implants
- ✓ Maximum stability
- ✓ Strong chewing function
- ✓ Ongoing jawbone stimulation
- ✗ Highest investment cost

Precision-Crafted. Naturally Designed.

THE ELITE DIFFERENTIATOR

MANY PRACTICES

Outsource restorations to high-volume dental labs

Use **standardized** templates for multiple patients

Focus primarily on **surgical** placement

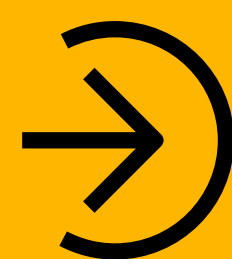

Make **limited** aesthetic adjustments after fabrication

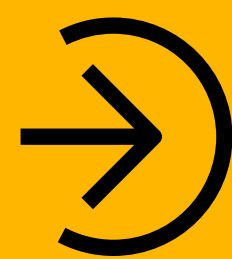

Prioritize speed and **volume**

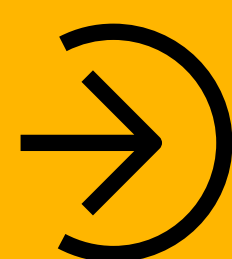

OUR APPROACH

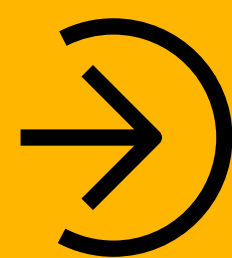

Design and **craft** restorations in-house

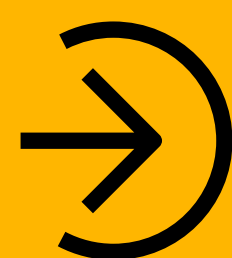

Customize each smile to the individual's facial structure

Balance surgical **precision** with aesthetic **artistry**

Refine color, contour, and translucency intentionally

Prioritize **long-term function**, stability, and realism

5

Reasons Why Patients Choose Us for DENTURES & DENTAL IMPLANTS

1

Superior Craftsmanship

Our award-winning denture craftsman creates custom dentures and dental implants in-house that are truly superior to any other. While many denture specialists create teeth that look fake, ours are indistinguishable from the real thing. No one will ever know you are wearing dentures or had a dental implant procedure done - they will just be in constant admiration of your beautiful smile.

2

Best Pain Management

We are one of the only practices in the area offering Full IV Sedation and General Anesthesia. Whether we are doing a full arch dental implant procedure, you have another complex dental problem, or you are just experiencing general anxiety or fear of going to the dentist, we have a variety of pain management techniques available to ease your anxiety and ensure your procedure is pain free.

3

Financing Options

We offer several financing options starting at \$0 down and 0% APR for 18 months. We also have our own in-house dental membership plan to ensure finances don't get in the way of you getting the treatment you need.

4

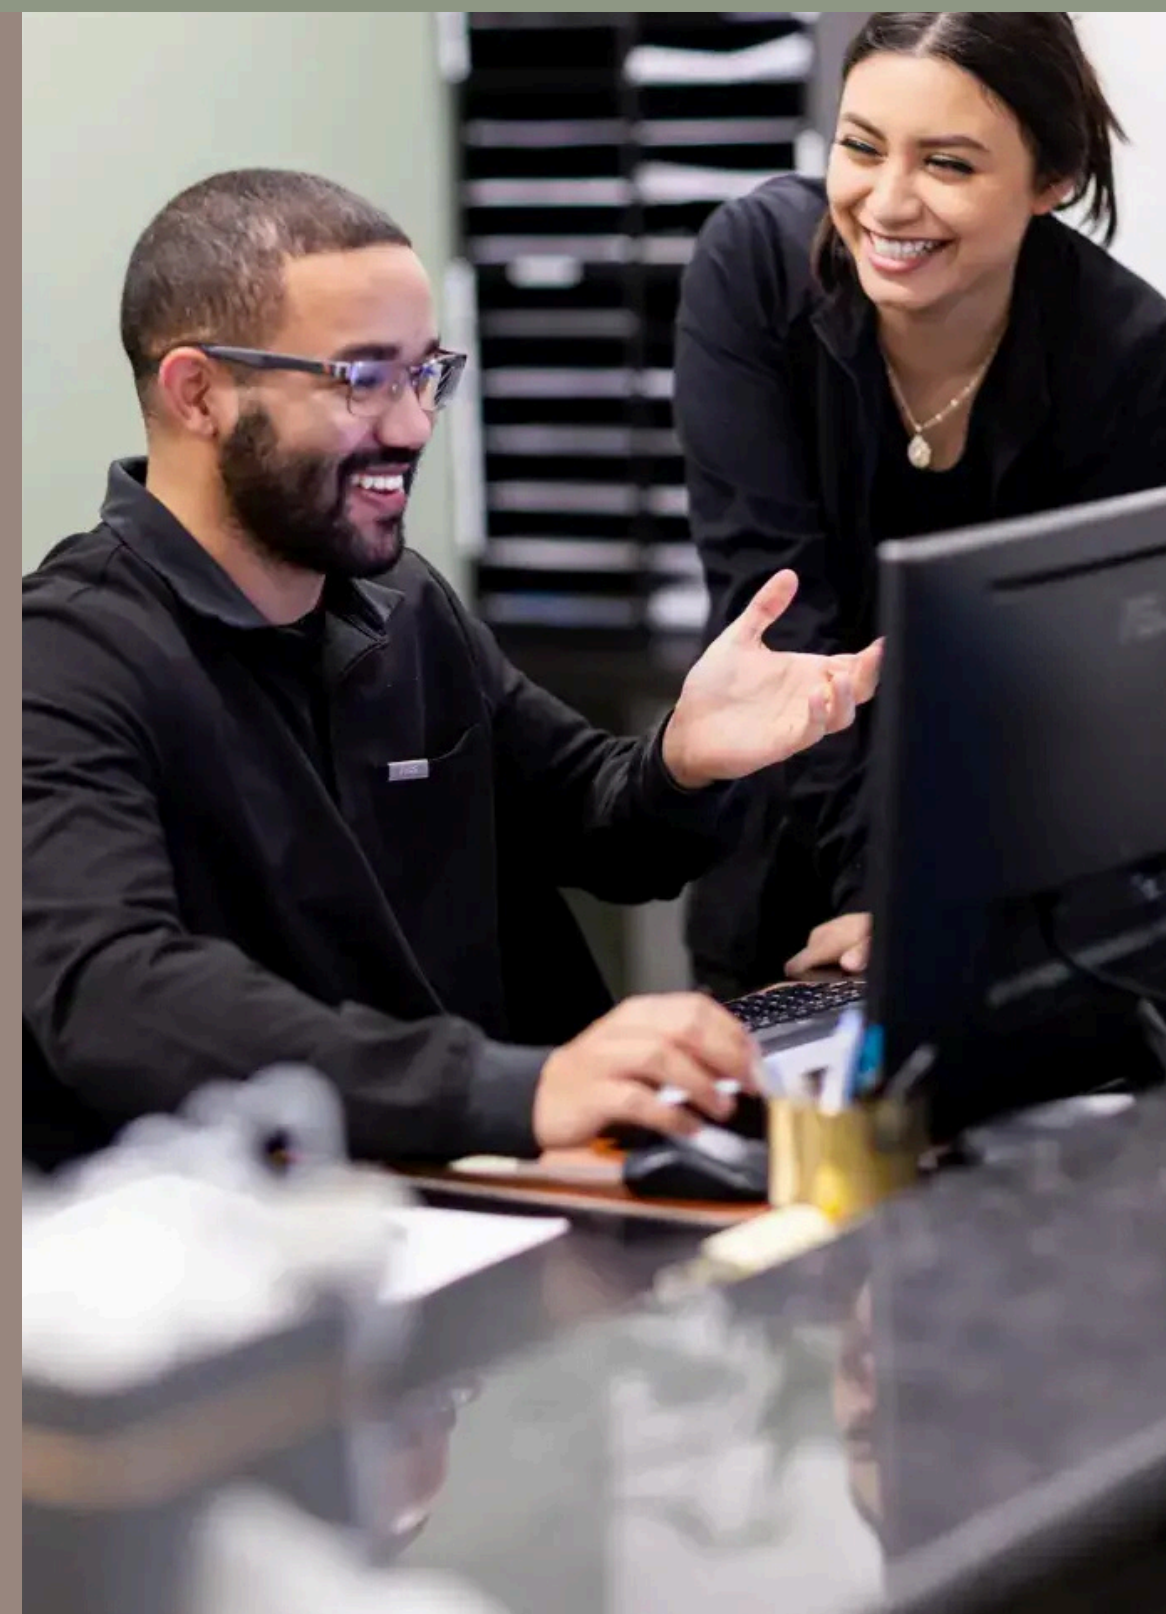

Everything Under 1 Roof

With one of the only state-of-the-art dental labs in Oklahoma, we provide all the dental services you will ever need under one roof. No need to be bounced around between providers. We care for your smile for a lifetime.

5

Friendly & Caring Staff

We feel we have the best team in the business with a staff that truly loves what we do and cares about the people we serve. Our patients routinely comment about how thankful they are to experience “no judgement” & feel the “genuine compassion & care” from our staff.

Patient Testimonials

Lori Jones

Such a caring team! Thank you for taking such good care of me and giving me my SMILE BACK!!!! You've won my heart!!!!

Breanna Moses

"After years of not smiling, feeling like I was an embarrassment to my kids and husband, I finally reached out and got help so I could be proud of my smile again and find my confidence again and that's exactly what Redeemed Smiles has done for me! Everyone in the office is so friendly and encouraging and helpful!! Absolutely made this nightmare into a dream!! I love my smile and I'm so proud to show it off!!!"

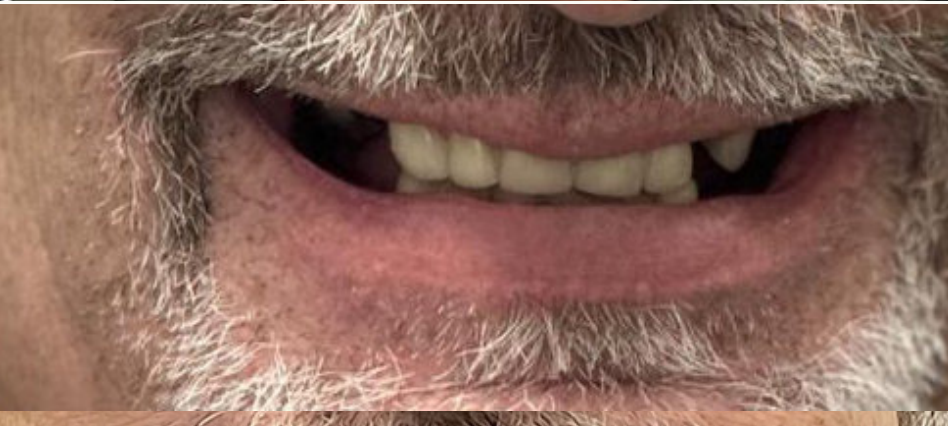

Angel Jarnagin

I was very nervous to do full mouth extractions and implants but Dr Fullington truly went above and beyond to make sure I was comfortable and at ease! I HIGHLY recommend Redeemed Smiles for any dental work you may need! If I could give more than 5 stars I would because they deserve it!!!
